

```
library(dplyr)
rladies_global
%>% filter(city=="Lausanne")
%>% filter(meetup.nbr == 10)
```

Statistical inference in the tidyverse framework: the infer package.

 **Elise Dupuis Lozeron**

 **May 16 - EFPL, CM 1.113**
18h00 Arrival
18h15 Presentation
19h15 Apéro

This talk will be about the infer package which aim is both to perform statistical inference using a syntax coherent with the tidyverse framework and to make the common logic behind statistical inference more apparent and intuitive.
